

MD. JASIM

Full Stack Developer · MERN · Next.js · TypeScript · PostgreSQL

+880-1715-052-808 · ismailjosim@yahoo.com · <https://www.ismailjosim.com> · [LinkedIn](#) · [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of hands-on experience building production-grade web applications using React, Next.js, TypeScript, Node.js, and PostgreSQL. Designed and shipped multiple SaaS platforms covering complex auth flows (RBAC, OAuth), payment integrations, real-time content and analytics dashboards, and REST APIs. Currently building Ahar Bengal; a restaurant management SaaS using Next.js 16, shadcn/ui, PostgreSQL, Prisma, and Better Auth. Proven ability to architect scalable systems, mentor 2,000+ developers, and deliver clean, maintainable code aligned with modern industry standards.

TECHNICAL SKILLS

Frontend React.js, Next.js 16, TypeScript, JavaScript (ES6+), Redux Toolkit, TanStack Query, React Hook Form, Tailwind CSS v4, shadcn/ui, Material UI, Ant Design

Backend Node.js, Express.js, REST API Design, JWT / Better Auth, OAuth 2.0, RBAC, Webhooks, Stripe, SSLCommerz, Nodemailer, Resend, Redis, Node Cron

Databases PostgreSQL, Prisma ORM, MongoDB, Mongoose ODM

Tools & Practices Git, GitHub, Linux, Firebase, Vercel, Netlify, Postman, ESLint, Prettier, Vitest, Cloudinary

PROFESSIONAL EXPERIENCE

Senior Web Instructor | Programming Hero

Apr 2025 – Present · Dhaka, BD

- Architected and built 10+ production-grade demo SaaS applications covering auth, payments, dashboards, and API integrations used live by 2,000+ active learners.
- Designed full-stack systems with React, Next.js, Node.js, and PostgreSQL, demonstrating real engineering workflows including error handling, role-based access, and deployment.
- Collaborated with curriculum teams to modernize course content aligned with current industry standards.
- Led live code reviews and architecture sessions, improving learner project completion rates and code quality across Batch 14 (first AI-first cohort).
- Recipient of Instructor Excellence Award for technical depth and learner impact.

Web Instructor | Programming Hero

Jul 2023 – Apr 2025 · Dhaka, BD

- Built and maintained MERN-stack demo applications and reusable component libraries used across course modules.
- Designed project-based learning systems that simulated real SaaS product workflows including booking, auth, and dashboard features.
- Conducted 200+ live debugging and mentoring sessions, directly supporting developer growth across multiple cohorts.

Web Developer Intern | Winsple

Jan 2023 – Feb 2023 · Dhaka, BD

- Developed reusable React components and integrated REST APIs as part of a cross-functional product team.
- Contributed to bug fixing, UI performance optimization, and feature implementation alongside backend engineers.

PROJECTS

Habitix — Next.js · React · TypeScript · PostgreSQL · Prisma · Better Auth · TanStack Query

[GitHub](#) / [Live](#)

- Built a full-stack student productivity SaaS featuring Pomodoro focus mode, task management, activity heatmaps, and a leaderboard deployed to Vercel.
- Implemented multi-role RBAC (Student, Mentor, Admin, Moderator, Corporate Viewer) with server-side authorization and protected API routes.
- Designed peer collaboration systems: help desk, notification center, badge rewards, and analytics dashboards with trend analysis and performance metrics.
- Wrote unit and integration tests with Vitest, covering auth flows and core productivity features.

Traveler — React · TypeScript · Node.js · Express.js · MongoDB · Stripe

[GitHub \(Client\)](#) / [GitHub \(Server\)](#) / [Live](#)

- Built a full-stack tour booking platform for travelers, tour guides, and admins with 30+ REST API endpoints covering tours, bookings, user management, and payments.
- Integrated Stripe payment processing and automated transactional email notifications via Nodemailer.
- Implemented JWT authentication, Google OAuth, and RBAC; optimized frontend with lazy loading and memoization for improved Lighthouse performance scores.

Portfolio & Content Platform — Next.js 16 · MongoDB · Mongoose · TypeScript · Tailwind CSS v4 · shadcn/ui

[GitHub](#) / [Live](#)

- Built a full-stack portfolio platform with a custom admin CMS managing 30+ published articles, 10 showcase projects, and 50+ technical skills across 7 categories.
- Designed a real-time content analytics dashboard tracking readership, engagement velocity, like rate, and discussion rate across published content.
- Implemented a rich-text blog authoring workflow (Markdown editor, Cloudinary media uploads, Draft/Review/Published states) with bilingual English/Bengali content support.
- Built form-driven content pipelines with React Hook Form and Zod validation, plus transactional email via Resend.

DevVault — Next.js · TypeScript · Motion · PostgreSQL · Zod · Prisma · Better Auth · Tailwind CSS

[GitHub](#) / [Live](#)

- Built a secure developer workspace for managing environment variables, project configs, and secrets with AES-256 encrypted storage.
- Implemented password generation, JWT secret generation, and reusable project templates with one-click copy functionality.
- Designed scalable auth and authorization workflows supporting team-level access control and audit logging.

CURRENTLY BUILDING

Ahar Bengal — Next.js 16 · TypeScript · PostgreSQL · Prisma · Better Auth · shadcn/ui

[GitHub \(Client\)](#) / [GitHub \(Server\)](#) / [Live](#)

- Restaurant management SaaS with multi-role auth (owner, manager, staff), menu management, order tracking, and reporting dashboards.
- Backend: Express.js API server with JWT via jose, middleware-based auth guards, and structured Prisma schema across User, Category, and MenuItem models.
- Frontend: Full auth UI flow (signup, login, forgot/reset password) with Lottie animations, server actions, and useActionState patterns.

EDUCATION

Self-Taught Full Stack Developer 2022 – Present

3+ years continuous learning through project-based development, open-source contribution, and peer mentorship.

MBA (Accounting) · BBA (Accounting) National University, Bangladesh · 2016 – 2025

ACHIEVEMENTS & COMMUNITY

- Instructor Excellence Award recipient at Programming Hero.
- Mentored 2,000+ aspiring developers through structured MERN and Next.js programs across multiple cohorts.
- Published Bengali-language technical articles on JWT, Better Auth, ESLint/Prettier setup, and React naming conventions targeting the Bengali-speaking developer community.
- Maintains an active open-source GitHub profile with educational projects and reusable component libraries.
- Active contributor to developer communities and technical mentorship programs.
